

Capsicum Antohi

Romanian

One of the best frying peppers with sweetness that is enhanced by cooking.

Upright plants that yield early and heavily with fruit by mid February. Produces peppers 10cm long, widely tapered, pale yellow, turning to orange and maturing to red.

Likes a fertiliser treatment once a month. To keep compact, pinch leaves on young plants.

Full sun produces best growth and fruiting results. Ideal for stuffing or used fresh in salads. Can be grilled, roasted or stir fried.
